WELCOME TO EUROTOX 2020

Dear Industry Partners,

The Danish Society of Toxicology and Pharmacology is honored to organize EUROTOX 2020 in Copenhagen, the capital of Denmark. The congress will take place from 6 to 9 September 2020. The venue is The Tivoli Congress Center, located in the city center.

Copenhagen is a historic city that was founded in the 10th century as a small Viking fishing community. The historic palaces feature ancient atmospheres that are perfectly suited to contemporary mold architecture. The

cultural and historic settings have inspired to the most innovative trends in fashion, design and architecture.

Copenhagen has a strong connection with its own waterfront, with a number of bridges connecting the various districts, the cityscape is characterised by parks and promenades. *Copenhagen's* landmarks such as Tivoli Gardens, *The Little Mermaid* statue, the royal castle Amalienborg and Christiansborg palaces, Rosenborg Castle Gardens, Frederik's Church, are significant tourist attractions. It is easy to get around walking, cycling or with public transportation (metro, road- and waterbuses').

Copenhagen is an academic city located in an area with 10 universities. *Denmark* has one of the strongest clusters within life science in Europe and is among the world leaders in terms of biotech patents. *Copenhagen* also hosts the European Environmental Agency that surveys state of the environment and environmental health in the European Union.

The congress theme "*Combined efforts in quest of safe chemicals and medicines*" reflects the congress programme including a variety of topics dealing with safety of drugs and environmental chemicals, new and emerging technologies, personalized medicine, human health effects caused by exposure to chemicals as well as safety issues arising from climate changes.

On behalf of the Danish Society of Toxicology and Pharmacology society (DSTF), it is a great pleasure to welcome all delegates to Copenhagen for EUROTOX2020.

Sincerely yours,

Professor Eva Bonefeld-Jørgensen
President of DSTF and Chair of EUROTOX 2020 Local Organizing Committee

Exhibition area

The exhibition of EUROTOX 2020 is scheduled for four days from Sunday to Wednesday, 6 to 9 September 2020. All exhibition booths will be conveniently located nearby the session halls and main traffic routes of delegates. Furthermore, the welcome reception on Sunday as well as all lunch and coffee breaks will be hosted within the exhibition area to increase booth visits.

Thus, a constant frequentation at the booths will be guaranteed to maximize networking opportunities.

INDUSTRY SUPPORT AND SPONSORSHIP LEVELS

Industry support is one of the key elements in the success of EUROTOX congresses. Your presence and generous contributions enable us to maintain affordable registration fees and at the same time offers you the opportunity to demonstrate your commitment to toxicology in Europe and beyond.

On the following pages, various exhibition and sponsorship options are listed, from which you may select different elements up to the amount of your company's financial contribution. Thus, please review all exhibition and sponsorship opportunities and combine those options that suit your marketing needs best.

Sponsorship Categories

When selecting a sponsorship option, you will be given a sponsorship category status based on the final amount of your support. The total contribution may consist of items such as advertisements, sponsored sessions, congress materials and exhibition space. You will benefit from outstanding advantages linked to your sponsorship category.

Status will be allocated as follows:

Sponsorship Category	Minimum Contribution
Platinum Sponsor	€ 20,000
Gold Sponsor	€ 15,000
Silver Sponsor	€ 8,000
Bronze Sponsor	€ 5,000
Sponsor	no minimum amount

The deadline for all sponsorship applications is **31 January 2020**.

Please note: Priority for assignment of sponsorship items and exhibition space is given (pending sponsorship category) within the given deadline. Afterwards, priority can only be granted upon availability. If two sponsors with the same level apply for the same sponsorship item, priority will be given on a "First come-First served"-basis.

II. Sponsorship and Advertising Items

All industry partners who decide to book one of the below-mentioned sponsorship items, will benefit from acknowledgement as sponsor on the congress website, in the final programme and on the on-site slides (incl. company logo).

Congress Programme, Breaks & Social Events

Industry Symposium

Price: € 3,000

Companies can organize their own symposium to showcase new technologies or products to many delegates who regularly attend the industry sponsored sessions. To attract even more participants, the sponsor may also provide snacks and drinks during the session at additional costs. The symposium will be suitably embedded in the official congress programme. A session room with the required technical equipment and technical support will be available. The scientific content and selection of speakers is up to the sponsor (to be approved by the Scientific Programme Committee first). The symposium programme will be included in the online and final programme. Time frame: 60 minutes, max. 4 in parallel.

Scientific Session

Price: € 3,850

Besides plenary and keynote sessions, the EUROTOX scientific programme includes scientific sessions running in four parallel rooms. Interested companies may sponsor one of those scientific session. Acknowledgement will be given to the sponsor by the chair of the session at the beginning. Kindly note: The support of a scientific session requires the approval of the Scientific Programme Committee (SPC) to avoid any possible conflicts of interest. The content and selection of speakers will be determined by the SPC.

Invited Plenary Speaker

Price: € 1,650

Instead of sponsoring a whole congress session, interested companies may also sponsor one of the invited speakers. The financial support will be used to cover the travel and accommodation costs of the plenary speaker. Kindly note: The support requires the approval of the Scientific Programme Committee (SPC) to avoid any possible conflicts of interest.
