

- ePoster Upload Guidelines -

1. MANAGE YOUR PROFILE

Before uploading your file, check your profile and edit as shown on the image below (upload the personal information, you would like to share, e.g. your photo, edit basic information, change password, and set your preferences).

The image shows a two-part screenshot. The top part is a navigation menu for a user named Anja Zeun. A red circle highlights the menu icon (three horizontal lines) in the top left corner. Another red circle highlights the user's name and profile picture, with the text 'View profile' below it. The menu items listed are: Programme at a Glance, ePosters, Sponsors, Virtual Exhibition, People, and Inbox. The background of the menu is a blue header with the Eurotox 2021 logo and the text '56th CONGRESS OF THE EUROPEAN SOCIETIES OF TOXICOLOGY TOXICOLOGY OF THE NEXT GENERATION WWW.EUROTOX2021.COM'. Below the menu is a photograph of a congress hall with signs for 'Programme', 'Sessions', 'Exhibition', and 'Poster Area'. A red arrow points from the 'View profile' link down to the second screenshot.

The bottom screenshot shows the 'Profile' editing page. It has two tabs: 'Profile' (selected) and 'Preferences'. The 'Profile' tab contains the following fields:

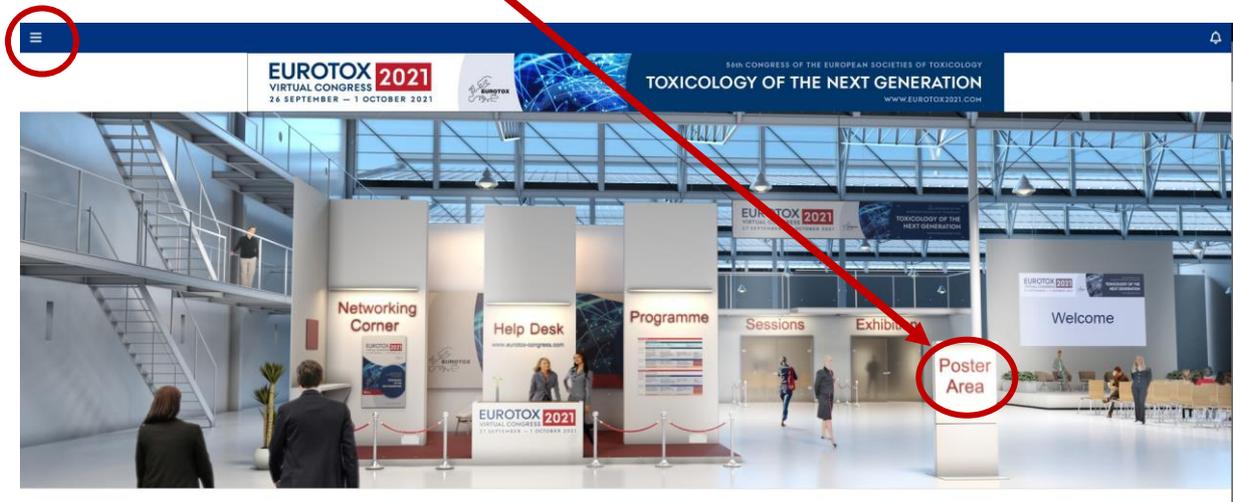

- Profile photo:** A field showing a profile picture of Anja Zeun. Below it is a note: "Please upload a JPG or PNG image file. We recommend a square image of minimum 300x300px size with the person's face in the center." There are edit and delete icons.
- Email:** A text input field containing 'zeun@kitdresden.de'.
- Password:** A button labeled 'CHANGE PASSWORD'.
- Name:** Three text input fields containing 'Anja', 'Zeun', and 'Credentials'.

The 'Preferences' tab contains the following fields:

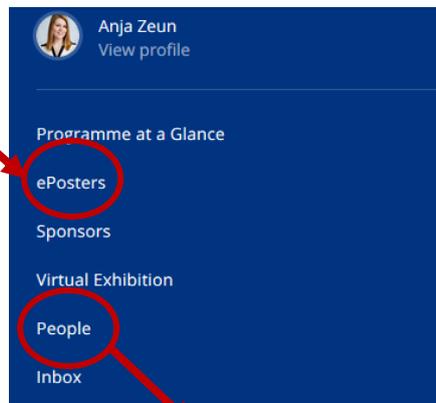

- Title:** A text input field containing 'EUROTOX Congress Organisation'.
- Organisation:** A text input field containing 'K.I.T. Group GmbH Dresden'.
- City:** An empty text input field.
- Country:** An empty text input field.
- Phone Number:** An empty text input field.
- Description:** A rich text editor with a toolbar containing icons for bold (B), italic (I), underline (U), strikethrough (X<sup>2</sup>), subscript (X<sub>2</sub>), bulleted list, numbered list, link, unlink, and image.

**2. UPLOAD YOUR FILES**

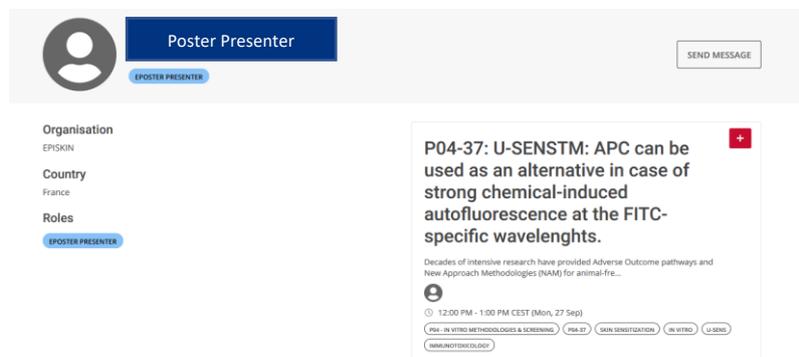

Step 1: Access the ePoster area by clicking on “Poster Area” on the starting page of the virtual congress platform.

Alternatively you can reach the poster area by using the side menu of the starting page (click on “ePosters”).

A third option to find your poster on the platform is to click on “People”, search your name there and click on it. If you click on your name, you can find all presentations related to you.

Once you found your poster, please click on it to reach the detailed description page of the poster.

**P04-47: Effects of mycotoxins in Caco-2 cells and HepG2 cells are alleviated by bioactive compounds from goji berries.**

Poster Presenter

8:00 AM - 8:00 PM CEST on Monday, 27 September  
Add to Calendar

Bioactive compounds (BACs) in natural matrices are compartmented in specific anatomical structures resulting in low bioavailability. Here, the study of bioaccessibility and bioavailability of carotenoids presents in *Lycium barbarum* L. goji berries (GB); zeaxanthine dipalmitate (ZDP), lutein (LUT) and zeaxanthine (ZEAX) using a trans-epithelial model with Caco-2 cells is presented. Among that the potential cytoprotection ZDP against beauvericin (BEA) mycotoxin in HepG2 cells was also carried out. Results revealed that bioaccessibility of carotenoids from digested GB oscillated between 40 % and 98 % from 1 h to 4 h in differentiated Caco-2 cells for the most bioavailable carotenoids: LUT, ZEAX and ZDP. Bioavailability of standard carotenoids at different concentrations was lower than those from natural digested GB. The order of carotenoids according their bioavailability correspond ZDP>ZEAX>LUT. Cytoprotection of ZDP against beauvericin (BEA) in pretreatment strategy in HepG2 cells increased with the exposure time (from 24h to 48 h) and the dose (BEA 1.25  $\mu$ M to 2.5  $\mu$ M); while in simultaneous treatment, this was only maintained for the dose and the opposite was observed for the time.

**Step 3:** In the "File"-tab in the managing area of your poster, you can upload your pdf file. We recommend **PDF files with a 16:9** (landscape format) aspect ratio (e.g., 2560 x 1440). Because our poster viewer has built in zoom controls, the absolute size isn't necessarily important, but a minimum of 2560x1440 will yield clear results.

**IMPORTANT:** Because the pdf poster files can be downloaded by all registered delegates, we highly recommend to include a copyright notice in your file!

Click on "Add new file" on the right side, then on "Upload". Select the file you wish to upload and click on the "Save" button on the bottom right.

**IMPORTANT:** Please make sure to name your file as indicated in the picture above - **Poster Number\_Last Name\_ePoster** – because our system requires a specific name per uploaded file. Unspecific file names lead to upload impossibility.

Once uploaded, your ePoster file will appear as indicated in the picture below.

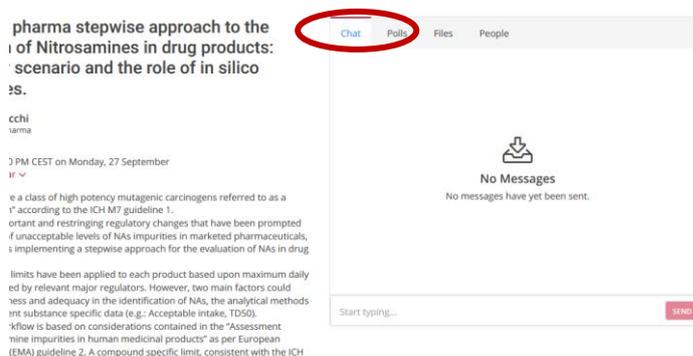

Beneath your ePoster your abstract will be shown in the description as a text only. Due to technical reasons, pictures within the abstract cannot be shown. If a graphic is of utmost importance, please contact us at [registration@eurotox-congress.com](mailto:registration@eurotox-congress.com).

### 3. MANAGE YOUR ePOSTER DURING VIRTUAL EUROTOX 2021

#### 1. Display of ePoster on the virtual congress platform

Throughout the whole live congress, your ePoster will be available on demand view for congress attendees right where you uploaded the poster file. The poster may be discussed via the chat that is linked to the poster display or when attendees send you private messages to your virtual congress platform account.

- Chat function at the poster (public chat, can be seen by all attendees that access the poster):

- Individual message (by clicking on the person in the people listing or the people tab of the poster):

#### 2. Discussion of ePoster on the networking platform

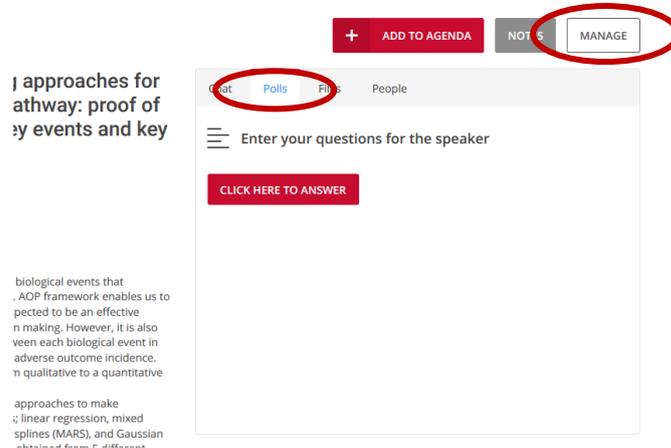

During the congress day your poster is assigned for presentation/discussion, your poster may be discussed with interested attendees via the networking tool gather.town during the poster viewing/discussion time slots (programme breaks, marked in dark blue in the congress agenda). Please refer to the online programme for the exact timing of these slots. The access link to the networking platform gather.town will be available on the congress platform in the poster viewing/discussion time slot descriptions. In gather.town you will find a congress center reminiscent of a computer game. Attendees will move throughout the networking area as an avatar. Each poster topic that is presented during that day will have a separate room where small poster boards are shown. Please choose one poster board to welcome attendees for discussion. It is expected

that the presenting author is present at the poster in gather.town during the assigned time slots so that interested attendees can get in contact to discuss the poster – individually or in groups. Video calls between attendees are automatically generated when the avatars approach each other on gather.town

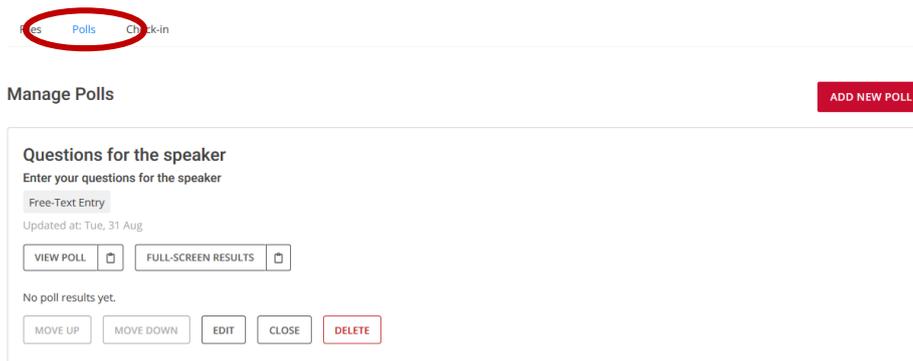

When entering the e-nterworking platform and naming your avatar, please make sure to include your poster number in your name so interested attendees know who to approach in the corresponding poster topic discussion room.

### 3. Start a poll about your poster

Next to the "Chat" functionality (on the virtual congress platform) you can create your own poll just for your poster. Click on the "Manage" button on the top right to create and/or view existing polls.

In the tab "Polls" you can view your poll as well as your results. On the top right you can add a new poll.

4. View your poster statistics

You can find statistics related to your ePoster in the "check-in"-tab in the managing area of your poster.

**FURTHER QUESTIONS OR CONCERNS?**

In case of further questions or concerns please do not hesitate to contact us at [registration@eurotox-congress.com](mailto:registration@eurotox-congress.com)

During the live congress there will also be a live chat available on the virtual congress platform to reach the help desk directly.
